

# STEVENS LAPASSE

Full Stack Web Developer | JavaScript

+33 6 22 30 24 25   @stevenslloyd@me.com   [linkedin.com](#)   <https://github.com/sll0yd>   Biarritz, France

## PROFESSIONAL PROFILE

Passionate Web Developer, with a successful career change through intensive professional training. I combine technical expertise and adaptability to create dynamic and high-performance applications. Curious and meticulous, I am particularly motivated by technical challenges and the design of intuitive and accessible user interfaces.

## PROJECTS

### Senior Love

Full stack development of a web application to promote social activities for seniors (60+).  
React / Vite / PostgreSQL / TailwindCSS

### Aussie Fitness

Full stack development of a web application for a fitness club.  
Next.js / Supabase / Prisma / TailwindCSS

## PROFESSIONAL EXPERIENCE

### Traffic Supervisor

[Kuwait Airways](#)   2016 - 2024   Paris, France

Comprehensive supervision of airport operations and team management, ensuring operational efficiency and customer satisfaction across all ground activities.

- Management and training of a team, including shift planning and performance evaluation
- Supervision of airport operations: coordination of passenger and cargo traffic, optimization of aircraft turnaround times
- Implementation and monitoring of continuous improvement procedures, analysis of operational data to optimize processes
- Management of emergency situations and decision-making under pressure (delays, cancellations, critical situations)
- Strategic coordination with various departments (maintenance, catering, airport authorities, immigration)

### Traffic Officer

[Kuwait Airways](#)   2009 - 2016   Paris, France

Coordination and supervision of ground operations, ensuring smooth departures and arrivals while guaranteeing compliance with safety standards and service quality.

- Coordination of ground operations and supervision of flight departures
- Main interface between crews, ground services and passengers
- Management of flight documentation and supervision of baggage handling
- Rigorous application of safety standards and airport procedures
- Assistance to passengers during irregular situations (connections, baggage, travel documents)

### Passenger Service Agent

[Air France](#)   2008 - 2009   Paris, France

Complete management of customer relations from check-in to boarding.

- Welcoming and assisting an international clientele at the counter and boarding gates
- Management of reservations and check-in operations
- Effective resolution of complex situations related to passenger travel
- Teamwork in a demanding multicultural environment
